Election/Restrictions

1. Restriction to one of the following inventions is also required under 35 U.S.C.

121:

- I. Claims 1-14, 18-34, 36 drawn to printer communication, classified in class 358, subclass 1.15.
- II. Claims 41-43 drawn to host computer communication classified in class 709, subclass 217.

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention printer has separate utility such as printing from a digital camera or used in a print shop for creating books, postcard etc. Invention computer has separate utility such as storing and computing for a user. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
